

Laucala Island

*“Bau nanuma na nodatou Lasa”*

*“Beautiful moments that last for eternity”*

Is an expression out of an old Fijian folksong, which has become one of our core mottos of Laucala Island. If you are searching for a paradise lost you can't do better than to follow your dreams. For those who do, islands symbolize the perfect counterbalance or escape for your holiday. We would like to welcome you to Laucala Island in the South Sea archipelago of Fiji.

Laucala Island is a perfect island escape, for those who seek the total luxury of privacy and space, relaxing ambience, enjoying culinary delicacies, yet being sportive active. Anything is possible on Laucala - playing a round of golf, cycling the island, game fishing, diving or sailing the turquoise waters or being pampered in the spa.

Only twenty-five residences widely spread on the northern tip of the island, each with its own swimming pool, leaving ample space giving the most privacy you can imagine. Seamless transition from indoor to outdoor living, creates an inspiringly relaxed yet luxurious atmosphere.

Not only are we a resort - we set a high value in taking a holistic approach of self sustainability in growing all fruits and vegetables on our own farms; breeding poultry and cattle, making our own honey and bottling the purest volcanic mineral water, baking our own breads - providing the best quality of produce possible for our restaurants.

We offer our guest 'cuisine à la Laucala' in five different restaurants beginning from degustation dinners in the colonial Plantation House Restaurant, Asian influenced dining in the tree tops of the Seagrass Lounge or barbeques at the beach.

Mountain sides, cliff tops white sandy beaches and turquoise waters - this awaits you on Laucala.

Moce Mada as we say...

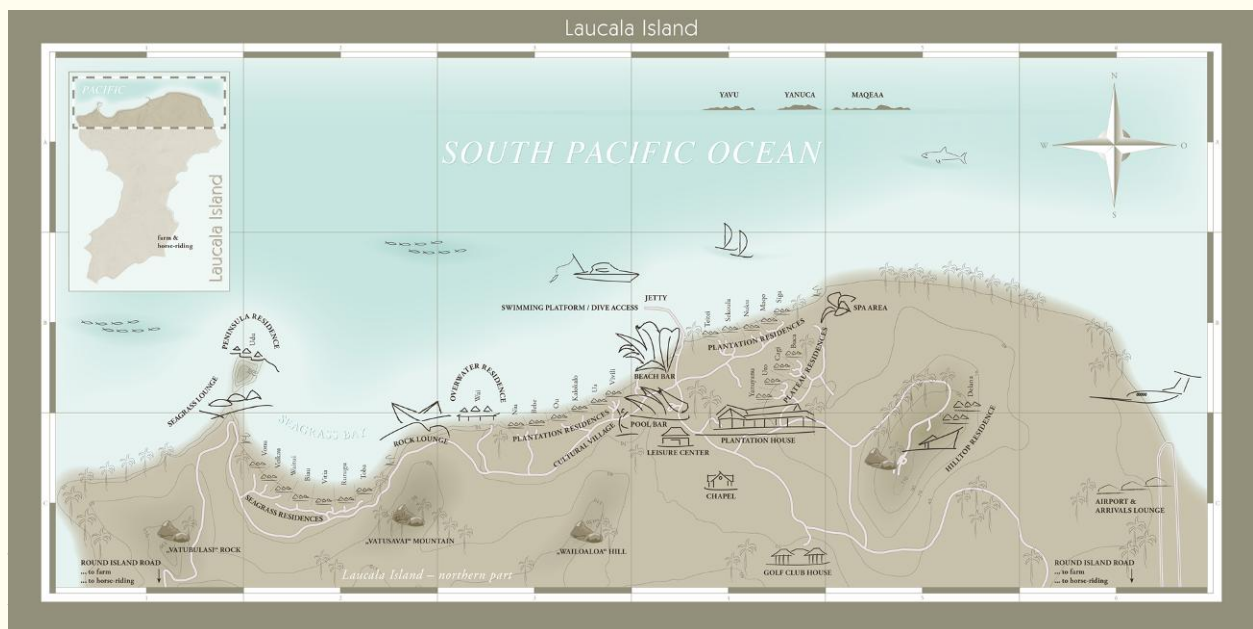

with kind regards from Laucala Island,  
Maja & Thomas Kilgore

Laucala Island

## Residences and their locations

The art of living in harmony with nature without renouncing the conveniences of modern comfort finds its highest expression. All our residences captivate visitors with their clear commitment to the natural environment and Fijian traditions. With their remarkable combination of vast space, exclusively designed interiors, natural materials, luxurious comfort, they create wonderfully inspiring surroundings for sophisticated travellers.

The twenty five residences are spread out in unique locations, differing quite a bit yet providing varying atmospheres. Some are set in the former coconut plantation, some the Seagrass Bay and on the Nawi Hill.

The characteristic villa Wai is built on stilts in the lagoon and the Peninsula residence crowns the tip of the peninsula island.

Laucala Island

## Plantation Residences

The Plantation Residences are located directly at the white sandy beach within the old Copra Plantation of the island. The interior design of the villas was to use light and space as part of the architecture, being particularly spacious, with seamless transitions from indoor to outdoor living areas. Spectacular views upon the open sea are like a piece of art. A relaxed and contemporary design offers a simply natural luxury.

## Seagrass Residences

The Seagrass Bay is what one would describe as a typical 'jungle' vegetation. Old tropical trees, lush bushes and wild growing coconuts create a color of opulent green – transcending into the white sandy coastline of the Seagrass bay. The villas are perfectly camouflaged by the mature natural vegetation. The organic pool formation of each villa blends seamlessly into the ocean view. Wooden decks, rocks and daybeds create a tropical outdoor living and dining experience.

Laucala Island

## Plateau Residences

Plateau Residences are situated on the Nawi hill overlooking the South Pacific Ocean, lending itself to a spectacular cliff top view of neighboring islands.

The exotic character of these bungalows cannot be described other than fantastic. The scenery of the blue ocean touching the white sand, gently transforming into a lush tropical green captures the islands atmosphere from the top of the hill.

Carefully integrated into the mountains landscape, their open-plan design blurs the boundary between the interior and exterior areas. Thanks to the exclusive seclusion on the ridge the Plateau Residences are particularly suitable for undisturbed holidays.

## Overwater Residence "Wai"

Wai means water in Fijian and is the patron name for this special overwater villa. It is a uniquely designed two bedroom residence with brilliant colors that elevate this resort to a noble holiday work of art. You will never experience the fascination of the South Pacific anywhere as fully as in this residence, which appears to float above the emerald-green lagoon.

Relax on the spacious terrace ranging across several levels over the lagoon and also when you have a bath in the hot tub or in the large private pool, which is carved directly into the rocks.

Laucala Island

## Peninsula Residence "Udu"

This luxurious mansion resembles an "island on an island", caressed by the dazzling turquoise waters of the South Pacific and surrounded by opulent green hills, a white beach and plenty of space for privacy. The Peninsula Villa is crowning on a rock proving the ultimate privacy for two. Uninterrupted ocean views from various levels of living spaces and outdoor pavilions are given at any time. Wooden walkways lead you to your relaxation and dining pavilions and to your private beach set in a cove. This exclusive privacy is actually the genuine Laucala luxury, the seductive icing on the cake of the Peninsula Residence.

## Delana Hilltop

Delana or the Hilltop Residence is situated on the highest point of the resort captivating 360° panoramic views around the island. An unusually designed main residence with its own panoramic pool landscape, two spacious guest residences are combined as a "resort in a resort" – views going into an endless ocean, overlooking the opulent green hills of Laucala island – this ambience crowns the dreams of luxury living à la Laucala. The Delana complex is suitable for up to 6 persons.
